

STAINLESS STEEL FIRE BOWLS

How do you remove the ash from your cooled down EGG without fumbling or getting your hands dirty? The Big Green Egg Stainless Steel Fire Bowls will do the dirty work for you.

The 2XL and XLarge Fire Bowls are split into two separate compartments to allow for multi-zone cooking in your EGG.

When you start a new cooking session, easily lift the Fire Bowl with charcoal out of the EGG. Hang it over a bin to shake out the cool ash, filtering it from the extinguished charcoal.

It provides an easy way to clean up and ensures maximum airflow, allowing you to get going quickly. Made of the highest quality stainless steel, without any welds, which makes it amazingly strong. Simply place it on the Cast Iron Grate or directly in the fire basket.

SOME FACTS:

- Two handles to lift out the charcoal easily and shake the ash for easy clean up.
- Maximizes airflow for quicker start-up's
- Bowl and handles manufactured from 304 stainless steel
- Highest quality construction with no welds to break
- Designed to replace the Cast Iron Grate with the same hole geometry
- The 2XL and XLarge Fire Bowls include a divider for 2-zone charcoal burning
